old collection.

26. I 72v.

Dear Zijad

Your letter gave me much pleasure.
I expected any information about you.
I allow of your excuse of delay. It re-
vives me that you are all right
and your affairs are in a prosperous state.
I thank you from the heart for
the invitation to Istanbul.

I think we could do it. As a teacher
I have vacation for two months. They are
July and August. Well now it is for you
to choose the opportune time.

I have still a request. If you are
so nice and hospitable could you

ask to come round with me also
my sister Marianna (Her address -
Marianna Muś, Katowice-8, ul. 2 maja 43/3,
Poland). She can speak German
fluently and Russian far better
than me. I would like to know
what do you think about that
proposal. Herby we can start to take
care of the formalities connected
with my trip.

My voyage to Japan lasted
for three and half months. I have been
to Hamburg, Antwerp, Amsterdam and Ro-
terdam. Then Canary Islands, (only one
night) and around Africa for forty

one days to Asia. The first port
it was Singapore, after Hong Kong
and three Japanese towns at last. (Kobe,
Nagoya and Yokohama). I've been also
in Tokyo. In the return way we made
a stop in Soestdijk as well.

It has provided many thrills for me.

The "godchild" (it means m/s "Kirin")
passes an examination.

The world looks to be very small.
For East appears not so far. On the other
hand Turkey, geographically near as it is,
seems more far-off for the sake
of characteristic of this country.
I exult over possibility of sightseeing your
native country.

My brother thanks you for the letter.
I return thank you for the Christmas
wishes you have sent me from
Denmark.

For Christmas 1970 you have flown
over there by a plane with me
and who has flown with you this time?

I look forward to your speedy
reply / at my letter of course, not
last question exclusively.)

With kind regards

Yours sincerely

Eva Mire
