Dear Sir,

After two week's research tour in Turkey, England and France, I came safely back to Japan. I would like to appreciate here your kindness shown to me during my brief stay in your country. Just after my arrival at Tokyo, I found myself in class because our academic semester begins in April every year. Finally I wish you will be successful in working your study.

Looking forward seeing you again in near future. With my best wishes.

Sincerely yours

Masayuki YAMA-UCHI

I remember your lovely Türkistan (Buhara) pilav. After I came back to Japan I tasted it again because Komatsu cooked by himself again. I express my best thankfulness to you about your kind favour. Give my best regards to your mother. See you again.
